**Inspirational People Research Task**

“No legs, no arms, no worries” is the motto of a very inspiring Australian man named Nick Vujicic who has taken his gifts; for motivational speaking, His winning smile, his incredible courage, his Christian faith and love out into the world to share with others. History’s pages are full of inspirational people who have recognised their particular gifts and have set about using them (often in the face of adversity) to serve others.

Anne Frank was a young teenage girl forced into hiding with her family during World War 2. Her family were Jewish and forced into hiding from the Nazi Party so they would not be separated and sent to concentration camps and killed. During this time she was in hiding in an attic room, Anne kept a diary detailing her thoughts and feelings. Little did she know that the thoughts of her 15 year old self would become one of the most famous of published diaries. Her published diary has inspired many people with her bravery and resilience during times of extreme hardship. Anne Frank wrote:

“How wonderful it is that nobody need wait a single moment before starting to improve the world.”
