This year, as part of our Pathway Planning Program, Guilford Young College is offering students the opportunity to complete extensive career testing. This testing is called the Morrisby Profile. The Morrisby Profile was developed in the UK and has been conducted for the past six years at Guilford Young College. It has received excellent reviews from parents and students, who have recognised the how insightful and helpful each individual’s Morrisby Report is.

**What is the Morrisby Test about?**
The testing offers extensive insights into the student’s personality and strengths. The Morrisby Report identifies a range of suitable careers based on the results of the testing. The testing does not look at what the student has learnt, but what he or she has the potential to achieve. However, students must have good literacy skills to gain from this testing.

**What does the Morrisby Test involve?**
The testing starts with 30 minutes of career and personal interest questions. The testing will then involve 2.5 hours of multiple choice assessments; eight exercises looking at personal ability and four looking at personality. Students will be able to take a number of short breaks during the testing period.

This year, it is expected that the majority of students who register to take the test will opt to complete it online at home during the two week break at the end of Term 1. Arrangements will be made for students to take the test at the College during Term 2 if they wish.

**What does it cost?**
The cost of purchasing the testing material, sending the tests to the UK for processing and printing the bound reports is quite expensive. Private Career Advisors charge up to $350 per person for the process. Owing to the streamlined online process this year, Guilford Young College will charge $50 per student.

**Registration**
In order to register your son or daughter for the Morrisby Test in 2017 please complete the permission form available at your Campus office or on the GYC website. The form, along with the $50 payment, is to be returned to your Campus office by Friday 7 April, 2017. Details of the online portal and a registration code will then be sent to your son or daughter which will enable the student to complete the test online.

**Testing Days**
Date:
   - At home online: any time between 17 and 30 April 2017
   - At the College: by arrangement
