

OFFICE OF TASMANIAN
ASSESSMENT, STANDARDS
& CERTIFICATION

NEW TASC WEBSITE

The establishment of the Office of Tasmanian Assessment, Standards and Certification (TASC) includes the launch of a redeveloped website which will support the operation of TASC – www.tasc.tas.gov.au

The new website replaces the TQA website. The content from the former website is still available. Existing hyperlinks to the old TQA website (for example, bookmarked links or links in publications) will automatically redirect to the corresponding resource within the new TASC website.

The redevelopment of the TASC website is ongoing and has included broad collaboration with a range of stakeholders across the senior secondary sector. We will continue to seek your feedback as this work progresses.

The website will provide information about the key operations of TASC, including:

- supporting senior secondary examination processes
- accrediting and documenting senior secondary courses
- reporting on years 11 and 12 student achievement.

In response to feedback from teachers, students and other stakeholders, the TASC website has a range of new features that ensure the website is easier to navigate and use.

In particular, the following features have been included:

- courses are now organised by learning areas with all the relevant and current documentation housed in these specific areas
- an A to Z listing of courses is available
- a new more engaging design has been applied to the website.

If you are unable to find the information you are looking for, or if you have feedback relating to the new website, please email enquiries@tasc.tas.gov.au.
